

Suzhou, 16 March 2022

Dear friend,

As several years ago, when the group of Italian companies that founded the Suzhou Working Group (now Suzhou Chapter of the CICC) reached out to each other for help and support, we are together now for the election of a new Board that can and will help members of the community and businesses alike.

The most important resources of the Italian Chamber of Commerce are its members and the Board of CICC is made by some of these members to help and connect.

Recent years have not been easy on the Italian business community in China.

Even lots of businesses have been thriving, and not all of us have, more and more difficulties were sprinkled on everybody by recent and most recent events.

In the last years we were able to start a new physical office of the CICC in Suzhou. Its main purpose to connect members with each other and to voice the business and local community towards the Local Government and the Italian Government as well.

In the forthcoming years we shall strengthen this office position and shall promote its action to help communication and ease the living of all CICC members and Italians in this area.

My commitment will be, shall I receive the chance to go forth with this mandate, to help our community, all Italian and Italian connected businesses and all who are and who will become members of the Chamber.

Very Best

Giacomo Bove
